## a) Report 2023/24

When it comes to education, progress is often measured slowly, and the last two years have been no exception. Grace continues her studies at the Kakamega Agriculture Polytechnic, while Benta remains enrolled at Kakuma Secondary School. We have covered the full school fees for both of them, as well as for Posei and Ezekiel in Shompole.

We are proud to report that Posei has taken an important step forward, joining the senior boys at Patterson Secondary School — the leading institution in the region.

As part of our long-term commitment to supporting education within conservation landscapes, we have also continued our assistance to Lenkobei School by providing daily lunches and schoolbooks throughout the year. Ensuring that children have access to education and proper nutrition remains one of the most effective ways to strengthen community resilience and, ultimately, safeguard the surrounding environment and wildlife.

Once again we wish to thank our generous sponsors.
